Player Groupings and Teams

All skill levels are approximate. Actual Group composition will depend upon the skill levels of all registered players. Numbers are based on a complete roster of 96 registrants.

1. INDIVIDUAL (96 max) registers on CourtReserve; skill level is known.
2. PAIRS/PARTNERS (48) – Tournament staff randomly pairs the Individual with a same-level partner. These two players remain a Pair throughout the tournament. Pairs will be “revealed” at the dinner.
3. GROUPS (16 Pairs x 3 levels) – Pairs from each of the 3 skill levels, again randomly chosen, constitute a Group.
 - A Groups = 2.5-3.0 = 32 players
 - B Groups = 3.5-4.0 = 32 players
 - C Groups = 4.5+ = 32 playersPlayers play only against Pairs within their skill group.
4. TEAMS (16 total) – One set of A, B, and C Group pairings, together, comprise a Team of 6 players. Teams will be “revealed” at the dinner.
5. DIVISIONS (2) –8 Teams comprise each Division: Mt. Bachelor Division and Broken Top Division
